output:

I'd be happy to help you create platform-specific social media content!

However, I notice the **“{{Social Media Topic}}”** placeholder needs to be filled in.

**“What topic would you like me to create content for?”**

For example:

- "The benefits of morning routines"
- "AI in digital marketing"
- "Sustainable fashion trends"
- "Remote work productivity tips"

Once you provide the topic, I'll generate:

**“Instagram”**: Short, catchy caption

Close

**Input**

Placeholder for your external tool. Based on the following input in workflow:

**Input name:**

**Default value:**

**Help:**

**Add options**

**Elite Captain**

**Agent:**

**Role:**

**Receipt:**

1. An engaging Instagram caption (short, catchy, with call-to-action and hashtag)

2. A professional LinkedIn post (educational, slightly detailed, professional tone)

Make the tone different for both platforms.
